WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY 25X1D

Grodno Army Barracks North (Figure 1) is located in the northern sector of Grodno (53-40N 023-50E). A rail spur from the Bialystok-Vilnius rail line serves the army barracks and a POL storage area, which is located 3.5 kilometers (km) north of the barracks area. An all-weather road connects the two installations and both installations have all-weather road connections to Grodno.

The secured barracks area (Figures 2 and 3) covers 85 acres and contains two administration buildings, eight barracks, six quarters, 20 storage buildings, 16 support buildings, a possible armory or large gymnasium, two wheeled-vehicle training courses, a vehicle park

and a vehicle storage/maintenance area with five vehicle maintenance/storage buildings.

The secured POL storage area covers 36 acres and contains six large POL tanks, 17 small POL tanks and three support buildings.

The area is covered by 11 KEYHOLE missions between [REDACTED]

[REDACTED] A comparative analysis revealed a higher level of activity during the summer months between [REDACTED]

The only change observed in facilities was the construction of a possible armory or gymnasium in [REDACTED] and its near completion by [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

A rail spur serves the barracks and the POL storage areas. Buildings beside the track in the POL storage area and the barracks area are probably used as transloading facilities.

Road Service

An all-weather road provides access to Grodno city streets.

Administrative and Troop Housing Areas

Area D1 (Figure 3) contains five barracks, three storage buildings and six quarters. Area D2 contains two administration buildings, three barracks and six support buildings. Track activity in both areas indicates probable occupancy.

General Storage Areas

Area E1, active, contains eight storage and three support buildings. Area E2, active, contains nine storage and two support buildings.

POL Storage Area

Area G contains six 45-foot-diameter vertical tanks, seventeen 20-foot-diameter vertical tanks and three support buildings. The area appears active.

Other Buildings 25X1D 25X1D 25X1D

A possible armory or large gymnasium (H), 520 by 210 feet, was under construction in [REDACTED] and nearly complete in [REDACTED]. It is possibly used for indoor training.

Equipment Storage/Maintenance Areas

Area J1 contains two vehicle sheds, 410 by 55 feet and 225 by 50 feet; three vehicle maintenance sheds, 260 by 110 feet, 350 by 95 feet and 210 by 65 feet; and five support buildings.

Area J2 contains a vehicle park 950 by 470 feet. Eight rows of large probable vehicles are visible in this area on [REDACTED] coverage.

NPIC/R-486/64

Driver Training Areas .

Area M1 is a closed circuit wheeled-vehicle driver training course.

Area M2 is closed circuit wheeled-vehicle driver training course.

Both of these courses are utilized only during the summer months.
